PROJECTS

VEDOP (2003 - 2005)
Cybersoft & Ministry of Finance
- I worked on the project to connect tax offices across the country to the data center in Ankara.

İGA - İstanbul Grand Airport (2016 - 2020)
EHA Energy
- I managed the entire data infrastructure project, including installation and commissioning processes, for Istanbul Grand Airport.

EDUCATION

Anadolu University
Information Management and Programming
(2004 - 2006), Eskişehir

Ahmet Yesevi University
Faculty of Engineering, Management Information Systems
(2012 - 2015), Ankara

WORK EXPERIANCE

General Manager
Savacı Proje, Dec 2019 – Aug 2024
As the founder and owner of Savacı Project, I managed IT projects, delivering customer-focused solutions. Led a team adapting to rapidly changing technologies, focusing on reliability, honesty, and quality in integrating information and communication systems.

IT Manger
EHA Energy, May 2016 - Jan 2020
Managed the installation of 8,000 kilometers of network infrastructure for Istanbul Grand Airport, overseeing active device installation and commissioning processes. I increased efficiency and accountability by enabling real-time project tracking through the company's ERP system. Managed project tender processes, budget control, and quality assurance procedures.

IT Manger
Gazi Metal, March 2014 - May 2016
Oversaw the installation, configuration, and commissioning of 2 core and 26 edge devices. Integrated automation systems with ERP to optimize production process tracking. Managed the Microsoft Dynamics Axapta ERP project and provided key user training.

IT Asistant Manager
Mikropor Filters, Oct 20212 - Apr 2014
Managed network systems, including fiber-optic linked factories and IP-based phone systems. Developed IT solutions for factory production lines and handled the backup of ERP SQL systems and maintenance of security systems.

IT Technical Support Manager
Gündüz Grup, May 2005 - Jun 2012
Worked on the planning, installation, and maintenance of IT solutions. Developed security policies, managed telecommunications infrastructure, and handled troubleshooting. Conducted internal security audits and contributed to various technology projects.

IT Technical Support Consultant
Cybersoft, Jan 2003 – Dec 2005

I worked within the Ministry of Finance's VEDOP project, handling the installation of hardware and software in tax offices. I gained proficiency in diagnosing and resolving technical issues. Additionally, I provided user training and consulting to address technical problems. My experience includes extensive work with technical issues and their solutions.

IT Supervisor
Riviera Suit Hotel, Jan 2002 - Nov 2003

I managed system installations to meet the hotel's IT needs. I optimized systems for data collection and analysis. I was responsible for ensuring the smooth operation of computer systems, maintaining information security, and performing necessary maintenance tasks.
